## INTRODUCTION:

United Packaging Company started with the sole purpose to provide packaging solutions to every type of industry – Electronics, Electrical, Pharmaceutical, Food and Beverages, Home appliances, Mobile phones and computing, Textile, Footwear, Cosmetics, Tobacco and Liquor. The company is fully owned and operated by **Woman Entrepreneurs**. The company has the expertise and the infrastructure to provide end to end packaging solutions. We strive hard to achieve customer satisfaction. We understand our customers have business to run and don't have to worry about packaging anymore. We believe in strong and long term business relationship.

## OUR MISSION:

United Packaging Company's mission is to focus on quality manufacturing using innovative design and emerging technologies that provide cost effective products and services to consistently exceed customer expectations. We would fulfil your packaging needs in a timely manner.

## ABOUT US:

United Packaging Company is managed by partners Mrs. Kavitha Palaniswamy (left) and Mrs. Shakila Ilango (Right) who are sisters and a native of Pondicherry. Both of them hold a bachelor's degree in Computer Science. Both returned from USA to fulfill their dream of entrepreneurship in their homeland. They are both goal oriented and wanted to make UPC the most preferred packaging supplier of all the

companies in Puducherry, Tamilnadu and beyond. With their personal growth they also wanted to contribute to the society and make a difference.

## OUR VALUES:

### Innovation and Creativity

Innovation is the mainstay of our business. Creativity is the cornerstone of our success. People are our fundamental asset and we empower them to succeed personally and professionally.

### Integrity

Be honest and ethical in our business practices. Keep our promises and learn from our mistakes.

### Respect

Treat everyone with respect and dignity, valuing individual and cultural differences. We believe in equal opportunities for all our employees.

### Quality

Commit to a culture that ensures the highest quality products and services by utilizing continuous improvement programs involving all employees.

## LOCATION

The factory is located in Ramanathapuram village about **10 kms west of Puducherry town**. We have been operating in the current location since 1<sup>st</sup> August 2014.

## INFRASTRUCTURE

We have a full fledged manufacturing unit of roughly 25,000 Sq. Ft total with different sheds for Production and Storage and also a huge drying area.

9. Kraft Paper Printing Machine (Double Color)
10. Punching Machine

## DETAILS OF LAB EQUIPMENT

*We have our own testing lab to ensure quality in our products.*

1. Bursting Strength Tester
2. GSM Tester
3. COBB Value Tester
4. Moisture Tester

## OUR PRODUCTS:

Our generic boxes and containers....

- Regular Slotted Carton (RSC)
- Full Flap Slotted Container (FFSC)
- Half-Slotted Container (HSC)
- Scored and Slotted Tray
- Die Cut Boxes
- Pads
- Partitions

### Regular Slotted Container (RSC)

The most common style of box, the RSC is made from a single sheet of board, where the outer flaps meet at the center of the box. The RSC is highly efficient and economical to manufacture because there is very little manufacturing wastage.

### Full Flap Slotted Container (FFSC)

This style is again made from a single sheet of board, where the outer flaps overlap the full width of the box. The FFSC is especially resistant to rough handling and is ideal for boxes with relatively narrow widths.

### Half-Slotted Container (HSC)

The HSC, with a cover, is a combination shipping and shelf package. The carton's flaps are located on the bottom of the box. The HSC is handy in applications where the cover will be removed repeatedly.

### Scored and Slotted Tray

These "topless boxes" are excellent for

- x Storage Boxes
- x Bottles
- x Parts Containers

### Die Cut Boxes

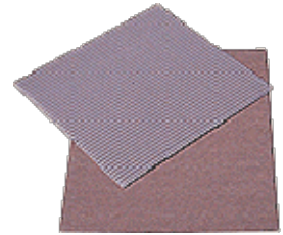

Innovative and unique box designs can be created by the use of specifically designed dies. Common corrugated board die cut styles include:

- x Mailers
- x Bin boxes
- x Self-erecting boxes
- x Product Display boxes

### Pads

Plain sheets of single wall corrugated board or sheets of single-face rolls, pads can be cut to your specifications. Pads are used as packing pieces to firmly hold merchandise, to separate layers of products within a box or to wrap uneven objects.

### Partitions

These are intersecting sheets of corrugated board that are used to separate items within a box.

Partitions are especially suited to packaging fragile contents and offer additional strength and support to the shipping container. .

## CONTACT

**Factory Address:** R. S. No. 205/4 Ramanathapuram Village,  
Villianur Commune,  
Puducherry-605 502.
